CREOM - CREATIVITY ON MACHINES

CRM-8 OEM Coin Recycler

CRM-8 is the first CREOM coin recycler, the result of experience and technology very appreciated by the industry. Compact, robust and reliable. These are the distinctive features of CRM-8, which make it unique in its kind.

As in the best of CREOM traditions, the materials of realization have been chosen with care, keeping in mind the mechanical requirements of the product and respecting the environment. Its essential components are made of metal and it is equipped with eight capacious Mini Hoppers, easily removable, which together with the ergonomic insertion and withdrawal nozzles of the coin, are the only parts in plastic material.

Thanks to an intelligent distribution of insertion flows and return of coins, and to a wise disposition of the Mini Hoppers inside, CRM-8 comes with an extremely compact body, ideal to suit the need to contain space in an integrated automatic payment system.

Each of its components are entirely made by CREOM.

CRM-8 is designed to work with both Euro coins and with different currencies. All versions are fitted with CREOM return of foreign objects system, which eliminates the risk of jam.

For its reliability and accuracy in counting and speed, the CRM-8 is the ideal answer for any automatic payment solution.
